

WARDROBE BASICS SHOPPING LIST

The Top 25 Pieces Your Closet Needs

When shopping for a wardrobe, there are certain items that just about every woman needs. Having these basics can help you add versatility to your clothing collection. After purchasing these 25 essential items, you'll be able to make well over 100 outfit combinations. Before using your shopping list, you'll need to choose a neutral color and an accent color (you can find guidance on color selection here: www.closetcharm.com/choosing-your-wardrobe-colors). When purchasing the basics, keep your personal situation in mind. A business executive might want to purchase her black pencil skirt in a fine wool fabric, while a stay-at-home mom might purchase hers in a casual cotton fabric.
